CROWDSTRIKE

FALCON X RECON+

Digital risk protection delivered by CrowdStrike threat experts

MANAGED THREAT MONITORING FOR THE OPEN, DEEP AND DARK WEB

Falcon X Recon+ simplifies the process of hunting for external threats to brands, employees and sensitive data on the open, deep and dark web.

CrowdStrike experts manage the effort of monitoring, triaging, assessing and mitigating threats across the criminal underground so you can focus on your business. Our experts monitor, on your behalf, data from restricted forums, marketplaces, messaging platforms, social media posts, data leak sites and much more to provide relevant, real-time warnings and identify data exposure and threats to your business.

Falcon X Recon+ threat experts assess and recommend effective mitigation steps, enabling you to act decisively with proactive steps to prevent and detect future attacks. The mitigation steps may include CrowdStrike facilitating the process of taking down malicious content that may threaten your brand or reputation, such as deleting harmful social media posts, removing data from paste sites, and removing spoofed or impersonated domains.

By offloading this effort to CrowdStrike, Falcon X Recon+ increases the effectiveness of your security team, while reducing the time, skills and effort required to battle sophisticated adversaries.

KEY BENEFITS

Delivers expertise with proven skills in triaging, assessing and mitigating external threats

Reduces costs of managing external threat monitoring and mitigation

Provides unrivaled coverage of the open, deep and dark web

Streamlines the takedown of malicious content threatening your brand or reputation

Delivers instant time to value — start monitoring external threats on Day One

KEY CAPABILITIES

DEEP EXPERTISE

- Falcon X Recon+ provides direct access to a CrowdStrike expert with proven effectiveness in identifying and mitigating threats across the criminal underground.
- CrowdStrike experts continuously hunt for potential external threats to your organization, keeping you updated on verified threats and eliminating the noise.
- Receive threat assessments with proactive steps to prevent and detect future threats.

UNRIVALED COVERAGE

- Gain near real-time visibility into potential external threats across millions of hidden web pages and restricted sites on the open, deep and dark web.
- Keep pace with the vast and dynamic underground — CrowdStrike updates monitoring rules to identify emerging threats to your business.

TAKEDOWN FACILITATION

- CrowdStrike works on your behalf to identify and facilitate the takedown of fraudulent accounts, phishing websites, domains and malicious posts that can harm your reputation or business.
- Save time by letting CrowdStrike facilitate the costly process of reporting to the host provider to remove the malicious content quickly and effectively before there is damage to your brand or business reputation.

FALCON X RECON+ DIGITAL RISK PROTECTION

Brand protection: Discover attackers associated with fraudulent interactions with your brand, including fake social media accounts, domains and impersonations

Data leak discovery: Detect compromised credentials and theft of sensitive data, personally identifiable information (PII) and bank card information from data leaked on the open, deep and dark web

Supply chain monitoring: Combat threats to your suppliers by exposing chatter, phishing campaigns, counterfeit websites and more

Executive protection: Monitor threats, impersonations and phishing attempts against VIPs and executives

Tools and infrastructure: Identify tools, malware and CVEs discussed or for sale on criminal forums and markets

ABOUT CROWDSTRIKE

CrowdStrike Holdings, Inc. (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with one of the world's most advanced cloud-native platforms for protecting critical areas of enterprise risk – endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform enables customers to benefit from rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.
